To Whom It May Concern,

Letter of Recommendation:

I am pleased to recommend Tara Atkinson, who worked with us at GET Outdoors Oman as a mountain biking and pump track instructor. Tara has been one of the most dependable and capable coaches we have had on our team.

Tara delivered MTB and pump track sessions for a wide range of groups, including school children, youth programs, adults, and mixed-ability riders. She approached every session with strong safety awareness, clear communication, and a calm, positive coaching style that helped participants feel comfortable and confident. Her ability to break down skills, manage groups, and create a supportive learning environment made a noticeable difference in rider progression.

She has a strong understanding of technical riding, on-trail skills, cornering, features, and pump track flow. Tara also brings a broader movement background that helps her teach balance, body position, and confidence on the bike in a very natural and accessible way.

We often work with multicultural groups in Oman, and Tara always handled these sessions with professionalism and cultural sensitivity. She is reliable, organised, and works well under pressure. She was also a big help with event support and general outdoor operations when needed.

Tara is a pleasure to have on any team. She brings enthusiasm, solid coaching experience, and a genuine care for the people she works with. I am confident she would be a strong asset to any adventure program.

Wishing her luck in the new role.

Kind Regards,

Tim

Tim Fenton
